

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Hidehiko KURODA et al.
Title: TORSIONAL VIBRATION MEASURING INSTRUMENT
Appl. No.: 10/509,126
Filing Date: 09/28/2004
Examiner: Unassigned
Art Unit: Unassigned

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the filing date of the application.

RELEVANCE OF EACH DOCUMENT

Any document listed on the attached PTO/SB/08 was cited as being relevant during the prosecution of the corresponding International application. Copies of the documents are not being provided since copies should have been provided directly by WIPO under an exchange program between the PTO, the EPO and the JPO. A copy of the International Search Report setting forth the portion of each reference considered relevant by the examiner is attached.

Documents A1 and A14 claim priority based on the same first-filed application.

Documents A2-A4, A15-A17 claim priority based on the same first-filed application.

Documents A5, A18-A20 claim priority based on the same first-filed application.

Documents A6, A21-A22 claim priority based on the same first-filed application.

Documents A7, A23-A24 claim priority based on the same first-filed application.

Documents A8, A25-A26 claim priority based on the same first-filed application. Document A8 and A25 is also described in the specification and discloses a non-contact system and method for monitoring the rotating shaft vibration. Monitoring is carried out optically measuring the relative twist angle of the rotating shaft.

Documents A9 and A27 claim priority based on the same first-filed application.

Documents A10 and A28 claim priority based on the same first-filed application.

Documents A11, A29-A30 claim priority based on the same first-filed application.

Documents A12, A31-A34 claim priority based on the same first-filed application.

Documents A13, A35-A36 claim priority based on the same first-filed application.

Applicants wish to bring to the Examiner's attention that US 5,723,794 is mentioned twice in the International Search Report (the first reference cited on page two (cite no. A6) of the search report and third from the last reference cited on the same page). Applicants' believe that the patent numbers has been transposed mentioning the inventor as "Seetha R. Mannava", therefore we did not cite this particular reference.

Applicants respectfully request that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

Respectfully submitted,

Date: NOV 29 2004
